

Patient Care Safety Monitor Pledge

By Dave Young, Co-Founder of Vistelar, VP of Training

My name is: _____

"I pledge to protect the safety, dignity, and well-being of every patient under my care.

I will stay alert, be decisive, follow all safety guidelines, and respond quickly to any signs of risk or distress.

I will treat each person with dignity by showing them respect, keeping their information private, and working as part of the healthcare team to maintain a safe and healing environment.

I understand that my presence matters, and I will take this responsibility seriously, every moment, for every patient."

Breaking It Down

1. Commitment to Safety

"I pledge to protect the safety, dignity, and well-being of every patient under my care. I will stay alert, follow all safety guidelines, and respond quickly to any signs of risk or distress."

2. Respect and Compassion

"I will treat each person with respect and compassion. I will protect their privacy and support their emotional and physical needs while maintaining a calm and caring presence."

3. Professional Responsibility

"I will work as part of the healthcare team to maintain a safe and healing environment. I understand that my presence matters, and I will take this responsibility seriously, every moment, for every patient."
